

# Oldwood Surgery & Battle Health Centre

## **Meet Warren**

### **Our Paramedic Practitioner**

Warren joined the practice in January. He has worked for the NHS for 20 years: 15 years as a Paramedic in the ambulance service and 5 years as a Paramedic Practitioner for GP surgeries. He lives locally with his wife, two children & his much loved dog. He enjoys keeping fit and enjoying the beautiful countryside East Sussex has to offer.

Warren treats our acute, on the day, illnesses e.g. coughs, colds, sore throats, ear infections, UTI, new pain in the body, constipation, vertigo etc. He also gives steroid injections. He works closely with the GPs and is very much part of the clinical team. He works in both locations at Oldwood Surgery & Battle Health Centre.
